

# CLEVER FRAME® EXHIBITION SYSTEM

Clever Frame® is a system of reusable aluminium frames, which - just like child's blocks - can be connected with each other in any configuration. With interchangeable graphic panels and many accessories, it is possible to simply adjust it to any kind of event. Thanks to that, it is possible to save over 80% of expenditure on promotional stands!

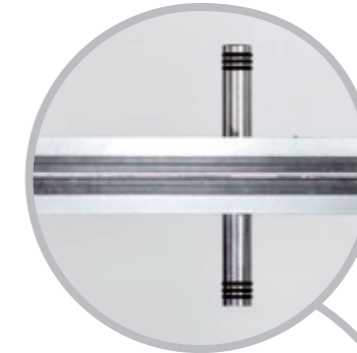

## Clever Frame® door system

Clever Frame® allows you to create closed spaces such as offices or cubicles.

## Hinges

With special connectors, it is possible to build structures of interesting, irregular shapes.

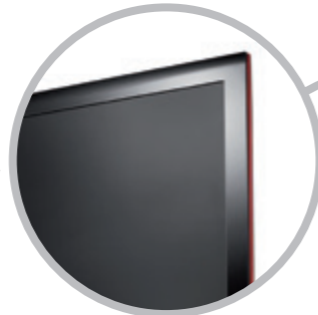

## Connectors

The frames of the system can be connected without tools, using special connectors. Assembly and disassembly of the system is child's play.

## LCD panels

Easily mount LCD panels, touch screens and other multimedia elements. System accessories offer many interesting possibilities.

## Replaceable graphic panels

Graphic panels equipped with magnetic strips can be quickly replaced. In order to change the display, only replacement panels or modification of their arrangement is required.

## Accessories and lighting

Clever Frame® can be equipped with a range of accessories such as lamps, leaflets dispensers, hangers, shelves and display cabinets.

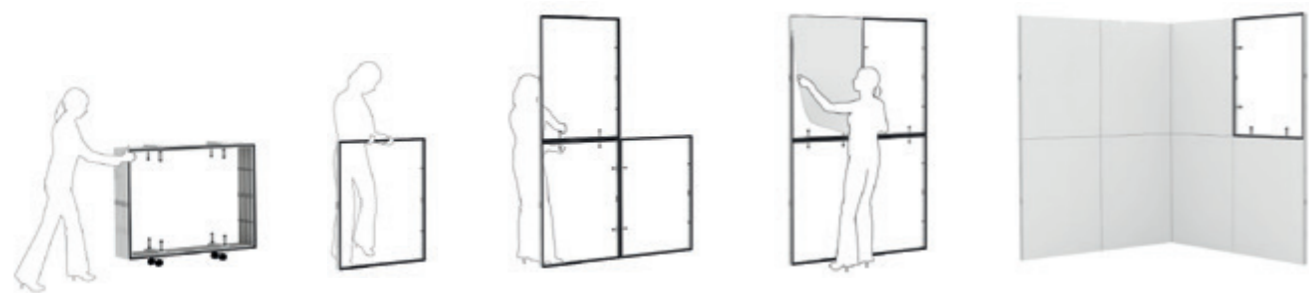

## Modular system in frames

Aluminium frames constitute the base of the system. Using them, you can create various configurations - just like with child's blocks - making your stand different each time!

## Simple and intuitive installation

ECO FRIENDLY

Do not produce wastes.  
Use multi-use promotional system.

### Infinite number of configurations

It is possible to build many different configurations with one set, each time adjusting it to different space ranges.

Regardless of where you are and what you want to achieve, you can use one and the same set of the CleverFrame frames®. It does not limit you with its shape or available space.

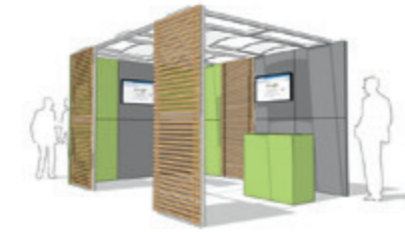

CleverFrame® set can be easily upgraded or divided.

The system is portable – it is easy to disassemble it into the form of a special carriage and transport it with ease.

## HOW MUCH DO YOU SAVE WITH CLEVER FRAME®?

YOU SAVE

# 83%

The cost of disposable exhibition stalls for 15 events.

## 45 000€

One-time cost of CleverFrame® for any number of events.

## 8 000€

Suppose that you participate in minimum three trade fairs, events or conferences during a year. Suppose that the average cost of one-time arrangement of 20m<sup>2</sup> of the available space amounts to 10 000 zł. Notice the dramatic reduction in unnecessary expenses. The cost of arranging 20m<sup>2</sup> with CleverFrame® system starts from 25 000 zł net.
